

HYDROEUROPE TEAM 1

DAILY REPORT

DATE 02/03/2010
REPORT EDITOR Jelena
PRESENTS Patrice, Zoubir, Byein Seong je, Mhenga, Lukman and Jean-Philippe

Meeting presents: seven out of eight team members were present.
It is second week of face to face period of Hydroeurope 2010. in Nice.

All day was reserved for team work. Today we continue working on engineering reports.
We were putting some ideas for final presentation:

What are challenges and rewards of intensive collaborative work on an engineering problem (your Hydroeurope) experience?

After lunch Zoubir and Jelena went to *Nice Matine* newspaper where they showed results from 2D modeling presenting flood zones to journalist. It was quite interesting.

Hydrology sub team (Jean-Philippe, Mhenga nad Lukman)

Hydrology sub team worked on engineering report.

MIKE SHE sub team (Felipe)

Not present during all day.

Patrice, Seongje and Zoubir will consider different measures for flood protection and give recommendations for future floods.

Jelena did some preparation for final presentation.

Things to be done:

1. Final presentation
2. Couple all engineering reports:
 - GIS
 - Hydrology and MIKE SHE
 - Hydraulics
3. Collaborative and experience report
4. Team video
