

## HYDROEUROPE TEAM 1

# DAILY REPORT

**DATE** 23/02/2010  
**REPORT EDITOR** Jelena  
**PRESENTS** Patrice, Zoubir, Byein Seong je, Mhenga, Lukman, Felipe and Jean-Philippe

Meeting presents: all team members were present.  
It is the second day of face to face period in Nice.

Day was reserved for team work.

### **GIS sub task**

GIS sub team finished and upload engineering report.

### **Hydrology sub task**

Hydrology sub team worked on engineering report.

### **Hydraulic sub task**

Hydraulic sub team created model in MIKE 21 and coupled model with MIKE 11 in MIKE FLOOD.  
For now we don't have realistic results. There is some discrepancy concerning coordinates in bathymetry file and in network file.

Plan for tomorrow is to find good solution for interpretation of MIKE FLOOD results and prepare presentation outline.
