

HYDROEUROPE TEAM 1

DAILY REPORT

DATE 25/02/2010
REPORT EDITOR Jelena
PRESENTS Patrice, Zoubir, Byein Seong je, Mhenga, Lukman, Felipe and Jean-Philippe

Meeting presents: all team members were present.
It is the fourth day of face to face period in Nice.

Hydrology sub team

Hydrology sub team worked on engineering report.

Hydraulic sub team

Hydraulic, GIS, Hydrology, MIKE SHE and sub team worked on second presentation slides. We discussed with supervisor about presentation outline, interpretation of simulation results and conclusions.

MIKE SHE sub team

MIKE SHE sub team continued with work on engineering report and on improving MIKE SHE model.

We agreed that Jean-Philippe will give the introduction part along with upstream boundary for simulations and Jelena will present results and give answer to:

Importance of Flood Plain Simulation for confidence in the Napoleon III Hydrograph.
