

Date: 4th February 2010.
Place: Nice, France

Present:

Jelena
Zoubir
Patrice

Members of team 1 in Nice gathered and had a meeting.

Zoubir finished rainfall interpolation and send results to hydrology sub team. He will upload results to website.

Jelena and Zoubir looked at hydraulics results.

In order to became more familiar with DHI software Patrice will look closer in coupling Mike 11 and Mike 21 model focusing on better presentation of flood plains.
