

Date: 15th January 2010.
Place: Nice, France

Present:

Jelena
Zoubir
Seong je

Members of team 1 in Nice gathered and had a meeting.
Discussion was regarding the topics for next meeting (20th of January 2010, 19h France time).

Topics are as follows:

The important topics for meeting are:

1. Team activity
2. Presenting results for engineering part for each sub-team
GIS work review.
Hydrology work.
Web space.
3. Presenting strategy for hydrological and hydraulics analysis
4. Since we split engineering tasks the managerial tasks are on schedule

Some of the team 1 members are not attending the meetings. Presents on the meeting are necessary and contribution from every team member.

I am aware that there are lectures going on in every location but meeting is just one hour in duration and I think that everybody can put an effort to remain present.

What	Who	When
Upload cover page, team rules	Jelena	17.01.2010.
Work on different hydrological approaches	Each team member to know well at least one hydrological approach	During next week

Hope to see everyone on 20th of January 7pm (France time).
