

Date: 29th January 2010.
Place: Nice, France

Present:

Jelena
Zoubir
Seong je

Members of team 1 in Nice gathered and had a meeting.

Zoubir presented results from Surfer software. He interpolated rainfalls on all sub catchments using IDW and Kriging method. He will do engineering report with presentation of methods, results and comparisons.

Jelena looked at schedule for period from 22.02 to 07.03. 2010. And start making plan about future meetings as well as highlighting all major points necessary for good participation in Hydroeurope.

What	Who	When
Finish rainfall interpolation	Zoubir	~
Prepare and present schedule for face to face period	Jelena	For next meeting 03.02.2010.
