Daily Meeting # 5

Date: 26th February 2010

Media used: Face to face meeting

Presence: Gopi, Elodie, Claire, Freda, Sandor, Yi, Sun-Ah

1) Presentation:

In the morning we had presentations given by all the teams. Our topic was Relative contributions of Hydrographs in each sub-catchment during the flood. Claire, Elodie and Sandor presented our topic.

2) Lectures:

By Prof. J.J. Peters

In the afternoon, we were shown video on “after the flood”. It was very informative. It was helpful in understanding the physical processes and the after effect of the flood.
