Daily Meeting # 6

Date: 1st March 2010

Media used: Face to face meeting

Presence: Gopi, Elodie, Claire, Freda, Sandor, Yi, Sun-Ah

1) Presentation: (by J.A.Cunge) :

In the morning session, we had presentations given by Prof. J.A.Cunge about Challenges in modelling, Calibration and software used for modelling. While choosing the parameters for calibration, we need to understand the physics behind it.

2) Presentation (by Kostya):

In the afternoon session, Mr.Kostya from Halcrow presented about ISIS.

After the presentation, we were given the topic for this week's presentation. Our topic is reasonable criteria for the calibration (MIKE SHE & MIKE 11). We had a discussion with Mr. Stefan Ides. He gave us a picture how to proceed with our work. After that we distributed our work and we'll start working on it from tomorrow.
