

Daily Report 1

Date: 22th of February

Topics of the day

- Before noon, we had our first TEAM10-presentation and got some practical additional information on the face-to-face meeting from prof. Gourbesville.
- In the afternoon we had an introduction to Mike Flood, and then had our first real team-meeting. The main points in the meeting were:
 - We all had a look at the hydrological report. We concluded it is very nice, full of detail; a nice amount of work has been done in the previous months. Some additional things will be done to complete the hydrological analysis:
 - *Gonzalo* will check the Kriger-method
 - *Roland* will finish his report
 - We will start the Mike-SHE, Mike-11 and ISIS-modelling from today
 - The tasks for the next days were divided as follows:

Topic	Who?
Mike SHE	Poh Hoon, José, Morgan, Evert
Mike 11 model set-up	Thai, Albert Guido
ISIS model set-up	Roland
Kriger method	Gonzalo
Finish hydrological modeling parts	Masato, Roland, Amine

- At the end of the day, we got our special assignment for the second presentation on friday:

[
*Strategy for effective communication to local authorities
about 94 flood analysis and proposed solutions.*
]

We will start discussion about this topic and the way to implement it in our time-schedule tomorrow morning.

- Don't forget: **“Work hard, play hard”**
